

STATE OF NEW JERSEY
DEPARTMENT OF HEALTH
TRENTON

July 11, 1941

Dear Co-worker:

The plans for the x-ray survey have been completed and we are now ready to engage in an intensive publicity campaign during the coming week.

Our purpose is to interest as many persons in Newark as is humanly possible in this effort to have free x-ray examination of everyone's chest. As you know these examinations are intended to discover disease conditions early so that early treatment may give a satisfactory result.

As a community minded citizen, we feel certain that you will cooperate in passing this information along to your friends and neighbors.

Monday or Tuesday, we shall deliver to you appointment slips which we will ask you to have signed and returned to the Friendly Neighborhood House, Howard and Morton Streets, before July 22nd. Kindly note that the condensed side of the slip is the one to be returned.

Thank you for your past cooperation.

Very truly yours,

J. Earle Stuart
